To install the desired graphic, just take the „Art“-Folder of the graphic you want and copy it in the AoE3-Directory. To change the graphic again, do it as above, the other graphics will be overwritten. To uninstall, take the original or delete all files in the following directories:

```
... \Age of Empires 3\art\objects\flags  
... \Age of Empires 3\art\ui\eso  
... \Age of Empires 3\art\ui\ingame  
... \Age of Empires 3\art\ui\home_city
```

NOTE: These Mods won't change the consulate-graphics in *The Asian Dynasties* and the big background graphic in the Multiplayer-Menu. These graphics will follow later. Thanks and have fun! =)
